THOUSANDS DYING ON FIELD OF BATTLE

**Twenty-Seven Thousand Slaughtered
at Laio Yang in Two Days.**

**Half a Million Men Engaged Make it the Greatest
Battle in History.**

THE THIRD DAY REVEALS NO CHANGE

Rome, Sept. 1.—The Liao Yang correspondent wires that the total losses at Liao Yang thus far are twenty-seven thousand.

The Russians lost fifteen thousand killed, wounded and taken prisoners, and also had forty-five cannon destroyed, and sixteen cannon, forty thousand rifles and two hundred wagons captured, and two hundred wagons destroyed. The Japanese losses are estimated at twelve thousand killed and wounded.

GARRISON HURRAHED.

St. Petersburg, Sept. 1.—General Stoessel reports that the Japanese made assaults on the fortress of Port Arthur August 23-26, but were repulsed each time. Gen. Stoessel states that the garrison received the congratulation of the czar on their bravery with a loud hurrah, and adds: "Your majesty's message doubled the forces defending Port Arthur. From today with God's help, all the assaults will be repulsed."

10,000 JAPANESE ADVANCING.

Mukden, Sept. 1.—It is reported here that 10,000 Japanese are advancing from the northeast. The report cannot be confirmed.

BATTLE STILL RAGES.

Tokio, Sept. 1.—The battle of Liao Yang is still proceeding. No result as yet has been obtained. Official dispatches sent Wednesday say that neither side has realized any visible result.

LIVING ON BISCUITS.

London, Sept. 1.—The Exchange Telegraph company's Rome correspondent wires that an official telegram has been received from Port Arthur reporting that the Russians had seventeen guns dismantled during the siege, and that the garrison is living almost entirely on biscuit. The fortress can hold out some time, however.

CROSSING ON PONTOON BRIDGES.

St. Petersburg, Sept. 1.—Gen. Kuroki's army is crossing the Taitse river to the east and north of Liao Yang. One division has crossed on pontoon bridges and others are now following.

GEN. STACKLEBERG WOUNDED.

London, Sept. 1.—Reuter's St. Petersburg correspondent reports that news has reached there that General Stackleberg was wounded at Liao Yang Wednesday, but remained on fighting and will live.

TOKIO'S LATEST NEWS.

Tokio, Sept. 1.—News reached here this evening that the Russian right and center, defending Liao Yang, are retreating with the Japanese in pursuit.

GEN. KROSEVSKI WOUNDED.

St. Petersburg, Sept. 1.—An official message from Liao Yang announces that Gen. Krosevski, commanding a portion of the Russian fighting line was seriously wounded yesterday.

TUESDAY'S BATTLE.

Liao Yang, Sept. 1.—The Russians made repeated bayonet advances in the road directly south of Liao Yang Tuesday, where the Japanese approached from Sanquashin and Tao, shelling the positions in the Russian lines until 4 o'clock in the afternoon, when the engagement, which was general throughout the south and southeast, narrowed to the main line.

The Japanese stubbornly attempted to occupy a round-topped hill, which was literally shaved by the Russian shells, making repeated attempts the entire day where apparently it was impossible for anything to live. The cannonading continued from this point to the vicinity of Wangpaoai until this evening without apparent advantage to either side.

The varied casualties here include one Russian war correspondent wounded, and also 25 Chinese women from Chiao-fantun, whom Dr. Westwater, the dis-

tinguished missionary, is caring for, in the Chinese Red Cross refuge. The day's developments show that the Russians are prepared for all emergencies. Considering the scale of the day's operations, the number of Russians wounded is apparently small, while the Japanese losses are believed to be great, especially where they were repulsed on the south road.

RUSSIAN VERSION.

St. Petersburg, Sept. 1.—Some interesting details of Tuesday's battle are furnished by Russian correspondents, from which it appears that two regiments of Japanese at daybreak attempted to capture the batteries of the Sixth Artillery Brigade, located on the extreme left flank of the Russian army. The attempt was only discovered in the nick of time.

Some of the Russian troops fought continuously for thirty-six hours. The concussion and the roar of the guns shook the windows at Liao Yang, though the artillery was six to eight miles away.

Nemirovich Danchenko, the famous Russian war correspondent, describing the battle, says: "The enemy, drunk with their former success, attacked from three sides, like madmen. When they were hurled back fresh troops, of which they seemed to have an inexhaustible supply, were sent forward."

M. Danchenko says the combatants had about 600 guns on each side, and adds:

"It was our first victory. The enemy was beaten back everywhere, many of his batteries were destroyed and in some cases his infantry was put to rout."

500,000 MEN ENGAGED.

Liao Yang, Sept. 1.—The battle was resumed yesterday earlier than it began Tuesday.

Over 500,000 men and 1,300 guns are engaged on both sides. Practically the whole Russian force is on the firing line.

Liao Yang, Sept. 1.—The Russians have effected an advance along the railway to the southward.

SITUATION AT PORT ARTHUR.

Chefoo, Sept. 1.—The advance positions of the Japanese before Port Arthur are now near Fort No. 5, on the east at Palichuang, on the north, and at Hukiatuon and Yanktowang on the west.

Chinese who left Port Arthur on Aug. 28, say that neither side was then occupying Fort No. 5.

The fort at Tungkia Tashan was destroyed by the Japanese who proceeded to mount guns on an adjoining hill.

The reported presence of Russians in the Itzhan hills has been confirmed.

TAKEN TO MUKDEN.

Mukden, Sept. 1.—Over 200 Japanese captured at the battle of Liao Yang passed through here on a train.

URNS KUROPATKIN'S POSITION.

London, Sept. 1.—The Exchange Telegraph Co. announces that a telegram has been received in official quarters in London that General Kuropatkin succeeded in turning General Kuroki's position from the north.

ALLEGED TO BE CONFIRMED.

London, Sept. 1.—The Exchange Telegraph Co. reports that official confirmation has been received in London of the report that the Russian right and center are in full retreat, with Generals Oku and Nodzu in pursuit.

CAPTURE FORTY-SIX GUNS.

Liao Yang, Sept. 1.—The town has been filled with joy owing to a report that the Russians took forty-six cannon yesterday.

The Japanese assault on the Russian center was desperate in the extreme. The Japanese losses were very great.

INDEPENDENT MEN TO QUIT TONIGHT

**Butchers Union Intent on Fore-
ing a Meat Famine.**

1,500 Independent Butchers Will
Walk Out at the Close of
Today's Work.

A RIOT IN EAST ST. LOUIS

Chicago, Sept. 1.—There has been no trouble at the stock yards this morning. Fifteen hundred independent butchers will quit this evening. Another plan for a settlement of the strike has been brought to Donnelly's attention. This is for officials of the five union railway employees to take to the packers a basis of settlement.

RIOT IN EAST ST. LOUIS.

East St. Louis, Sept. 1.—The packing house strikers attacked a street car near the stock yards this morning because of six persons on the car three of whom were strike breakers. Many shots were fired and a riot call was turned in. One man was seriously injured. Sheriff Thompson was called out and twenty-five men with riot guns now patrol the stock yards district.

LIVELY TIME

**SHOOTING REPORTED OVER IN
CALLOWAY COUNTY.**

A lively scrap is said to have taken place over in the edge of Calloway county last Saturday night near Brown's Grove, in which it is said that several parties engaged in a general knock down, says the Mayfield Messenger.

It is also reported that Luther Mudd was shot in the hip, but not seriously hurt. Dr. Crawford cut the ball out and says he will recover. All of the parties have their examining trial in a few days.

MISTREATED A GIRL

**CHICAGO JUDGE GIVES A WRETCH
LIFE SENTENCE FOR THIS AND
HIS WIFE ONE YEAR.**

Chicago, Sept. 1.—Milton M. Carson has been sentenced to imprisonment in the penitentiary for life, after conviction of mistreating Mable Yaffield, 14 years old. His wife, Violet, also was found guilty by a jury in Judge Kersten's court, and sentenced to a year's imprisonment.

The conviction and imposition of the severest penalty on Carson came at the end of eight days' trial. He previously had been guilty of attacking another young girl and sentenced to fourteen years' imprisonment. His wife also was convicted and given a like sentence.

MINISTER DEAD.

New York, Sept. 1.—Dr. Thomas Herran, who represented Colombia at Washington for several years up to the time of the Panama incident, died last evening at Liberty, N. Y. He had been ill for some time and went to Liberty in the hope that a sojourn there would aid in the restoration.

The attack was sustained mainly by the Eighth Siberian regiment. The fighting at Wafangow can not be compared with what occurred today. Shells shrieked over the town from early morning. People who occupied positions on housetops saw a magnificent spectacle. Fine rain has begun to fall.

CROSSED THE RIVER.

St. Petersburg, Sept. 1.—The report that the Japanese under General Kuropatkin crossed Taitse river is confirmed in an official dispatch from general Sakharoff. After fording the river the Japanese advanced towards Liao Yang in two bodies and fierce fighting ensued between the leading ranks of Russians and Japanese.

St. Petersburg, Sept. 1.—Further dispatches from Liao Yang confirm the reported capture of forty-six Japanese guns, which were brought up to the railroad station, where Gen. Kuropatkin's train was standing.

HELPED BUILD THE SHOPS IN PADUCAH

**Capt. T. A. Johnston Dies in
Garrison, Ky.**

Was an Uncle of Mr. W. H. Kirby,
of the City, and a Promi-
nent Man.

BURIAL WAS AT CARLISLE, KY

Captain T. A. Johnston, a railroad man known from one end of Kentucky to the other, and one of the men who built the railroad shops in Paducah in 1884, died a day or two ago at his home in Garrison, Ky., from Bright's disease. He had been ill for some time, but his condition was not regarded as serious until a short time before his death.

Captain Johnston was an uncle of Mr. W. H. Kirby, of the Palmer Transfer Company here, and Mr. Kirby returned today from Carlisle, Ky., where he attended the burial. The deceased was 62 years old and leaves only a wife.

Years ago Captain Johnston and Mr. Kirby came to Paducah and assisted in putting up the shops here. They also built fifty miles of the Illinois Central, from Dyersburg to Covington, Tenn.

Captain Johnston in later years did some of the most important railroad work in Kentucky, and was up to the time of his death in the employ of the Chesapeake & Ohio.

That road and the L. and N. furnished the funeral party a special train from Garrison, to Carlisle, Ky., and the funeral was largely attended.

Captain Johnston is remembered by many people in Paducah, especially the railroad men, and those with whom he was brought in contact when engaged in building the shops here.

TOO MUCH WHISKEY

**CAUSED JIM MAGNER TO BE
ADJUDGED INSANE.**

Jim Magner, the blacksmith, was this morning tried before County Judge R. T. Lightfoot and adjudged insane by a jury.

Magner had been drinking a great deal of late and when he drinks gets crazy. He has been in such a nervous condition of late that his physicians think he is mentally unbalanced.

Magner treated the matter with much amusement. He laughed at the jail this morning and said it was the first instance he ever observed where a man was sent to the asylum for lunacy for simply getting drunk. He says he will be out again shortly. Magner seems rational and will probably be refused at the asylum.

OCTOBER 1ST

THE LIGHT PLANT WILL BE ENLARGED

**Mr. S. A. Fowler to go to St.
Louis to Investigate.**

The City Will Take Steps to Give
the People More Light—Street
Cleaning By Contract.

BOARD OF PUBLIC WORKS MET

The board of public works met yesterday afternoon at 4 o'clock and transacted much business, passing on several matters of much importance to the public.

Possibly the most important matter considered was that of enlarging the city electric plant. This was considered last February, but on account of lack of funds, was dropped. The city electrician reported that the present equipment would not permit of an increase of lights, and as the city is rapidly growing and the need of more lights is already keenly felt, the board realizes that something must be done next year.

Mr. Saunders Fowler, a member of the board, was instructed to personally confer with St. Louis electrical engineers and ascertain the exact expense which may be incurred in increasing the facilities and to get ideas on what kinds of improvements should be made and estimates on them. At present the board has several communications from St. Louis engineers who want to bid on the work, but a correspondence was not thought to be adequate and a local representative for personal conference was decided on. Mr. Fowler will leave this week and get all possible data.

The board further decided to call for bids for keeping clean the brick streets, and those to be built hereafter. At present the city cleans the streets, sometimes using the chaingang laborers, but using regular street department employees mostly. This is expensive, and the board will call for bids and see if the work can be done cheaper. If this is possible the board will contract for street cleaning by the year.

Another important matter acted on was in regard to the Cumberland Telephone Co. placing wires underground. The manager of the local station and the engineer of construction of the company, of Nashville, appeared before the board with a plat of the conduits to be put down on the streets to be improved, and asked the board to allow them to place one distributing pole to each block. The plat did not show where the poles were to be placed and the board referred the matter to City Engineer Washington, who will meet with the telephone engineer and decide on the location of each pole. The board readily agreed to let the company put up one distributing pole.

The ordinance passed by the council and board of aldermen regarding the market house improvements, were gone over and the regular accounts against the city with the running expenses, etc., were checked over. All accounts were not in and the board deferred them until Tuesday night when the board will meet in special session to receive market house bids and pass on all bills which will by that time be in.

The board adjourned shortly before 6 o'clock and did not meet last night, the regular time, because of appointments members of the board had to fill which prevented meeting at the regular time.

THE BIG LEAGUE

**FOR BOTH FREEMAN AND LAND
NEXT YEAR.**

Secretary M. J. Farnbaker, of the K. of C. League, telegraphed the Sun today that he has recommended Land to both St. Louis clubs, and that he will probably be drafted tomorrow. The St. Louis team is too late, Land was yesterday morning at 7:45 o'clock drafted into the Pittsburgh Nationals. Secretary Farnbaker has recommended Buck Freeman to the St. Louis Cardinals and expects to see both Paducah's catcher and star twirler go to the big league next year.

ROCKEFELLER TO HAVE BANK.

London, Sept. 1.—It is said here that John D. Rockefeller is about to establish a bank in London. He will have a capital of many million pounds, sterling.

HOW PADUCAH CAN WIN THE PENNANT

**Manager Ray Expects to Land
the Rag Now.**

Cairo Must Lose and Paducah Must
Win in Order To Turn
the Trick.

HOW IT IS FIGURED OUT

The average person can get no idea of the interest taken in Paducah just now in baseball unless he mixes around awhile and hears the national game discussed. There is not a section of the city in which it is not the sole topic of discussion of many people. Hundreds of people who are "cranks" never go to see a game except on Sunday, because they don't have time during the week, but they keep up with the games and know the name of every player in the K. I. T. League.

The question of whether or not Paducah has any chance to win the pennant is a mooted one. If Cairo loses enough and Paducah wins enough games, Paducah can win. Many do not believe that Cairo will lose enough to give the pennant, even if Paducah takes five out of six with Cairo, for many do not believe that there is much prospect of any club in the league defeating Cairo enough to throw Paducah at the head of the list.

The whole thing, therefore, depends on how many games Cairo loses after she leaves Paducah, and how many Paducah wins. Even should Paducah win every game after Cairo leaves, it is just as necessary for Cairo to lose, as if Cairo wins and Paducah wins, they will continue to remain as far apart as ever from each other, although their percentage would increase.

Manager John Ray, of the Paducah club, however, thinks Paducah will win, and here is how he figures it out: "We are now six games behind Cairo. If we take today's and Friday's games, this will leave Cairo with four games to the good. Three remain to be played after this series of 12 games by Cairo and Paducah. Cairo goes to Clarksville, Hopkinsville, Henderson and then Vincennes. Clarksville and Vincennes are stumbling blocks to Cairo and with her staff of pitchers in the present deplorable condition, we expect to see her defeated on her trip seven or eight games. Clarksville will get two, we figure, and Vincennes 2, while we think Henderson and Hopkinsville will be able to take an even break in the six games.

Paducah goes to Henderson, Vincennes, Hopkinsville and lastly Clarksville. We pitch Bonno every other day and with Goodwin and Brahe will put our staff of twirlers against any one. We use our weaker pitchers in the weak team games, and lay our star men out for the heavy hitting teams. We intend to take nine games on our trip and if we can't overcome the lead of Cairo, we will be willing to assign the rag over to the Parasites."

Last year Cairo and Clarksville were battling for first place with just a game or two between them. Henderson beat Cairo two out of three and Paducah beat Clarksville. Had Clarksville beaten Paducah she would have taken the rag. It is a remarkable coincidence that Clarksville this year breaks it last with the Indians, and if she beats Paducah like Paducah did her last year, she may keep the rag from Wallace park.

MORE DELAY

**AUTOMATIC GATES NOT PUT TO
WORK TODAY.**

Contrary to expectations the automatic railroad gates being installed here were not put into operation today.

The delay in putting the gates into operation is because the piping ran out and the gates could not be connected up and also the gate houses have not yet arrived from Central City, where they are being built.

The houses are under the supervision of Supervisor W. C. Waggoner whose headquarters are at Central City and when finished will be loaded onto box cars and brought here. From present indications it will be more than a week even if the houses arrive today, before the gates are ready for service.

TODAY'S SCHEDULE.

Cairo at Paducah.
Vincennes at Clarksville.
Henderson at Hopkinsville.

The Redskins and Sipe Water Parasites got into a tangle at Wallace park reservation yesterday.

Stated briefly the contest was as follows:

In the fourth inning O'Connor hit to Crotty who made a bad throw. O'Connor was sacrificed to second by Haas and Hughes took a look at three oyster separators. Kling hit for two bags to right and O'Connor trotted in, tallying one run. Richards hit to Bateman and was blocked at first.

Paducah followed and made two runs. Powers hit hard to Richards, who let it get by. Crotty singled to left and Powers, who had stolen second, went to third. Harley hit to O'Connor, who made a bad throw. Powers and Crotty scoring on the error. Brady popped out to Richards and Bateman failed to hit one out of three. Gerard let his optics do the work and Lally got one in the left arm and walked to first. Potts popped out to Hughes and retired the side. Two runs.

In the fifth inning the Parasites took it this way:

Larson hit to Crotty, who threw to first, Lally muffed the throw. Rutledge hit to center and Crangle got to first on Bateman and Gerard's mixup after his fly, which was dropped. Shannon hit to Crotty, who threw wild in home, Larson and Rutledge scoring. O'Connor hit to Bateman, who threw Crangle out at home. Haas hit for two bags and scored. Shannon. Hughes went out from short to first and Haas was left on second by Kling's strike-out. Four runs.

Here is where the fans took a back seat and let the cat get their tongues. Land went to the plate and retired from Richards to Hughes and Powers popped out to Hughes. Crotty walked and made the circuit on a wild pitched. Harley fled out to Larson and retired the side. One run.

In the sixth inning the Parasites tallied again. Richards flew out to Gerard and Lar-did Crangle, tallying one run, and here Brady took to the woods.

Brady took the sphere and worked admirably. Shannon popped out to Bateman and O'Connor missed three.

The next inning it was a goose egg for Cairo, but Paducah in the seventh took a few on and did something. Potts waited and got his. Land hit to Richards, who forced Potts out. Powers hit safe and Crotty reached first on Hughes' error. Harley singled and Land, with Powers, scored. Brahie hit to Kling and reached first on a fumble. Bateman forced Brahie out from Hughes to Richards, but made safe on slow return of ball. Gerard hit safe

and runs began tallying. Until this time four runs had been made and it looked like a "pipe." Lally retired from short to first and the Parasites took to the stick.

They failed to do anything, but in the eighth the Redskins tallied again, cinching the deal. Potts hit for two sacks and Land for three. Potts scoring. Powers hit to Richards who fumbled. Land scoring. Powers stated to steal and Shannon, who had taken Rutledge's place catching, threw wild. Powers reaching third. Crotty hit hard to right and Powers came in home on put out. After this the Parasites retired their side.

In the ninth the Parasites scored one. O'Connor went out from second to first and Haas popped out to Potts. It seemed easy after this, but Hughes hit for one bag again and sent the fans' hearts to going. Kling hit for two bags and Hughes scored. Richards failed to connect and retired the side.

Baseball Notes.

Patrons of the game should not undertake to assault or mistreat an umpire. He does the best he can, and does not make one-tenth the errors that the players make, although he has more chances. Umpire Zinkins is a good umpire and the only one who has stuck through the season. Three times he has resigned on account of the way fans over the league abused him, and three times did the league refuse to accept his resignation.

Rutledge hurt a hand yesterday and in the last of the 6th inning retired from the game. Shannon came out of center field and caught the game out. Wilder went to right field and Haas from right to center field.

Yesterday was a banner day in heavy hitting.

Eddie Powers says he doesn't live in Cairo any more. "Paducah is the town for me," he declared, and "I have passed Cairo up."

Potts yesterday was forced to second base by a hit to Land to Richards, who fumbled and by the time he got the ball Potts was on second. Richards had secured the ball and rushed to the base just as Potts stepped on

He pushed the runner off and Zinkins called Potts out. This caused the fans to rush out on the diamond after Zinkins, but officers were on hand and quieted the threatened disturbance.

Crotty had three errors but one of them was excusable. The others made were by a wild throw to first and letting a bad bounce grounder go over his head and through his hands.

Bonno was loudly cheered at the park yesterday when he walked across the diamond.

Yesterday few sacrifice hits were made, the game being a "hit and run game."

Buck Freeman's hand is better and he says he thinks he will be able to pitch by Sunday. With Freeman, Goodwin, Bonno and Brahie, we ought to take a few games.

Mr. Ben Weille while away, saw Brocket pitch for Buffalo, N. Y., against Jersey City. He says the former Cairo pitcher is in good form, and won his game, allowing only three hits. He did not like it up there at first, but is now well pleased, and sent his regards to all the Kitty league players and patrons.

Goodwin did not arrive yesterday because Captain Wilkerson would not let him leave until Catcher Eddie Brahie showed up to don a red uniform. Brahie arrived yesterday and caught for the Hoosiers and Wilkerson turned Goodwin loose. Goodwin stated Sunday that he would like to join the Redskins to help out in the pennant race.

NEWS OF THE RIVERS.

Gauge today reads 3.2, a fall of one tenth. Weather clear and warm.

The Dick Fowler left at 8 a. m., for Cairo with a light trip of passengers and a good freight trip.

The Bob Dudley was the Evansville packet today, leaving this afternoon on her return.

The Tennessee will arrive this evening from Tennessee river and depart at 9 o'clock Saturday.

The Royal made her regular trip to Paducah and return from Golconda today.

The Russell Lord arrived today from Mississippi river.

The City of Savannah leaves St. Louis tomorrow night for Tennessee river.

The tie boat Victor grounded a tow of three barges of ties yesterday at Little Chain, below Metropolis, and was forced to leave one. Two were pulled off and she proceeded to Jeppa to get a lighter to release the other.

The government boat Patrol, which has been on the ways here, leaves today for Memphis to go back into commission.

City National Bank of Paducah, Ky., and Sundry Other Parties, Against Steamer Chattanooga, In Admiralty:

Whereas, libels have been filed in the district court of the United States, by the City National Bank, of Paducah and others, against the Steamer Chattanooga, her engines, tackle, apparel, furniture, fixtures, etc., alleging in substance that said Steamer Chattanooga is indebted to the various libellants in the various sums mentioned in said libels, and for the reasons stated therein, thereby becoming indebted to the said parties for the aggregate amount of \$—, and they pray process against the said Steamer Chattanooga, and that said steamer may be condemned and sold to pay said claims, with cost and expenses.

NEGLECTED COLDS.

Every part of the mucous membrane, the nose, throat, ears head and lungs, etc., are subjected to disease and blight from neglected colds. SEVEN-FOOT VEIN

Nortonville Coal Co., Makes Another Strike.

Vein of Coal of the Finest Quality
Discovered at Nortonville
Yesterday.

The Nortonville Coal Company, in which Paducah men are largely interested, yesterday struck a new vein of coal, seven feet thick, and of the finest quality.

A number of fine veins have been discovered since the company began operations, but this is said to be the best and one of the largest yet found, the quality being equal to the best production in the state.

The company is doing a big business, and Nortonville is now one of the liveliest, most thriving places in the state for its size, and is growing rapidly.

THE REGISTRATION

THOSE WHO MOVE AFTER SEPTEMBER 9 CANNOT VOTE.

Secretary Thomas L. Walker, of the Republican State Campaign Committee, at Louisville, has sent out notices to all Republican county chairmen, and a warning to be given to Republicans, that all persons who move out of the precinct in which they are now living after September 9 will not be allowed to register, and will lose their vote in November.

The state law specifies that a person must live in a precinct sixty days before the election in order to be allowed to vote.

The dates of registration this year are October 9, 10 and 11, throughout the state, except in Louisville, where registration will be held only on October 9 and 10.

HEALTHY MOTHERS.

Mothers should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous alike to mother and child, when Dr. Boschee's German Syrup would put a stop to it at once? No mother should be without this old and tried remedy in the house—for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can be speedily cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and refreshing rest to the cough-racked consumptive. New trial bottles, 25c; large size 75c. At DuBois, Kolb & Co.

THE NEW STATIONS NOW IN OPERATION

Paducah Today Has Splendid Fire Protection.

Fire Chief James Woods Assigns His Men and Throws Open the New Stations.

READY FOR ALL FIRES NOW

Residents of Paducah awoke this morning with perhaps the most complete fire protection of any city of Paducah's size in the country.

This is the result of the insurance men's action several months ago when they decided the fire fighting facilities here were not adequate, and recommended improvements which were not at first provided by the municipal boards. The insurance men ordered the insurance rates increased by the "pink slips" and better facilities have followed.

The new trucks, which were delayed at the factory, arrived the fore part of the week and the installation of the machines, men and horses to man the station, was hastened in order to have everything ready by the first of the month.

Fire Chief Woods yesterday afternoon assigned his men to the stations as follows:

CENTRAL STATION.

Joe Collins, captain; John McFadden and J. W. Harvey, drivers; Will Husbands, Will Haffey, Sam Ewitt, Ike Hollowell, Morris Ingram and Sid Gilbert, truckmen.

STATION NO. 2.

Corner Fourth and Elizabeth streets—Tom Glenn, captain; Si Green, driver; Charles Etter and Henry Robinson, pipemen.

STATION NO. 3.

Corner Tenth and Clay—John Slaughter, captain; A. M. Dustin, driver; Moss Council and Noah English, pipemen.

STATION NO. 4.

Corner Tenth and Jones—Jake Elliott, captain; Harry Allen, Guy Radolph, drivers; Charles Block, pipeman; Len Cochran, French Shoemaker and Will Craft, truckmen.

Chief Woods was busy this morning making inspections of the stations and getting matters properly shaped. The alarm apparatus was inspected and every precaution taken to have everything working. The departments are now ready for business and prepared to fight fires of all kinds.

In regard to the inspection of the departments, nothing definite has been heard other than that the underwriters will visit Paducah as soon as possible.

CAIRO MAN

GETS INTO IT BAD IN DEMOCRATIC CONVENTION.

The Democratic senatorial convention for the fifth district, in Southern Illinois, held over at Jonesboro, resulted in a rough house.

Delegates from Franklin and Alexander counties, who did not approve of a motion being out of order, attempted to forcibly eject the chairman and a fight resulted, in which Judge W. H. Hart of Benton, candidate for presidential elector of the 25th district, received a very bad cut over the right eye. There was great confusion, and after the convention was adjourned warrants were sworn out charging Judge Hart, Ben Price and Delegate Powers of Cairo with rioting. They were held to bail in the sum of \$600.

After order was restored in the convention the remaining delegates nominated S. B. Esby of Benton for senator and W. W. Williams of Herrin and A. M. Brownlee of Benton for representatives.

There is much bad feeling among the delegates.

COMING TO PADUCAH

BRANCH OF THE FAMOUS
DRAUGHON'S
Practical Business Colleges

The Paducah School Will be School No. 14.

Paducah has never been more fortunate in securing a new enterprise than when Prof. J. F. Draughon, president of Draughon's chain of Practical Business Colleges, decided to open a branch school in Paducah at 312, 314 and 316 Broadway about Sept. 15th. Halls are now being remodeled at cost of several hundred dollars.

Absorbed Prof. Smith's School.

The first one of Draughon's Practical Business Colleges was established fifteen years ago. This chain of schools was merged into a stock company during the past year with a capital stock of \$300,000.00. The stock is principally owned by business men, and the schools are endorsed by business men from Maine to California. Fourteen bankers are on the company's board of directors. It already has schools located in the following cities: Nashville, Tenn., St. Louis, Mo., Atlanta, Ga., Columbia, S. C., Montgomery, Ala., Little Rock, Ark., Shreveport, La., Oklahoma, O. T., Ft. Worth, Texas, Galveston, Texas, Ft. Scott, Kan., Kansas City, Mo., and Knoxville, Tenn.

Should Encourage the Enterprise.

The people of Paducah should encourage this enterprise. It will not be an institution for local students alone, but it will draw hundreds of students to Paducah every year and bring to Paducah many thousands of dollars which would not otherwise come. Over FIVE THOUSAND students attend Draughon's chain of Colleges each year.

The company mails over two million pieces of advertising matter throughout the United States every year on which matter the names and addresses of Draughon's Colleges are given. This will, in many ways, advertise Paducah as well as other cities where these schools are located.

The Mayor of Nashville Says:

A. S. Williams, President City Savings Bank and Mayor of Nashville, says: "Prof. J. F. Draughon, president and founder of Draughon's Colleges, has been doing his banking with us for 15 years. We have found him prompt in meeting his obligations, fair in his dealings, courteous in his demeanor, and a man of the strictest integrity and most wonderful energy and vim. We do not believe there is a person in Nashville of greater energy than he. His success in every respect in conducting business colleges has been REMARKABLE. We take pleasure in recommending him as a man of fine business capacity and worthy of trust."

Those who desire catalogues before the school opens should address Draughon's Practical Business College, Nashville, Tenn., or see Prof. Jno. D. Smith, Paducah, Ky. Special inducements will be given those who enroll on or about the opening of the school.

A CARD

FROM PROF. JOHN D. SMITH, JR., WHO HAS DISPOSED OF HIS COLLEGE.

To the Public:

I take this method of informing the public that I have sold my Business College and good will to the Draughon Practical Business College Co., which company will assume charge of my college in Paducah on or about September 15.

I have for several years known of Draughon's chain of business colleges, and know that they are schools conducted upon a high plane, and give a high grade of instruction. I recently visited the home office, Nashville, Tenn., and made personal investigations. I will be financially interested in Draughon's chain of colleges.

I thank the public for its liberal patronage, and take pleasure in recommending Draughon's Business College to the public, and feel that I have done much for Paducah by reason of being instrumental in securing for Paducah a link of the Draughon chain of colleges which have a national reputation. JOHN D. SMITH, JR., Proprietor of Smith's Business College.

CAPT W. C. CLARK

IS OPPOSED TO A CHANGE OF THE STATE CAPITOL SITE.

Representative W. C. Clark, of Paducah, does not take any stock in the effort to move the State Capitol site.

"I say," he declared to a reporter, "that the state capitol should stay right where it is, and has been for so many years. If the architect employed to design the new building can't build it on the present site, let them get someone who can."

There has been talk of an extra session of the legislature to change the site, but it will probably amount to nothing.

GREATEST BATTLE IN HISTORY.

The battle now in progress around
Liao Yang is conceded to be the great-
est in the world's history. Of all the
sanguinary conflicts of history, includ-
ing the bloody engagements of the civil
war, none equalled in number of men
engaged, or in deadly equipment, this
battle raging in the far east. It is es-
timated that half a million men are
engaged, and while this may be to some
extent an exaggeration, it is certain
that never before did two such gigantic
armies meet. If the struggle is not in
proportion to the number engaged, it
will be because of the carefully pre-
pared defenses. The enormous cost of
such a battle can only be conjectured.
Thousands of pounds of powder, and
lead and steel are being consumed, and
doubtless much of it wasted. The re-
sult of the battle is being awaited by
the entire world, and whatever it is,
the terrific loss of life and destruction
of property will not have been in vain
if it arouses in man an antipathy to
war, that relic of barbarism which it
seems the highest civilization cannot
shake off.

The mayor should see that the city
is not imposed on. The people are look-
ing to him to protect the interests of
the public, and do not expect him to
give away or allow anything given
away, that belongs to the people. The
city compromised with the telephone
company for \$3,000, and this \$3,000 be-
longed to the city—the people. Before
the mayor and general council give any-
one \$1,250 of it for "collecting" it, they
had better examine the contract on the
subject, and see just what it is that
the city agreed to pay fifty per cent.
for collecting. The proposition made
by the law firm and accepted by the
city is clear, and is on file in the city
clerk's office. If the city agreed to
pay fifty per cent. for collecting "pole
rents" and this \$3,000, which is a com-
promise made by the city and not a
"collection," making it virtually the gen-
eral council that put it through, is not
for "pole rent," it is plain that no one
is entitled to \$1,250 of it. No one was
authorized by the city to settle or col-
lect for licenses, franchise taxes and
other things, and if such has been done,
it has been done voluntarily, and with-
out stipulation of any fee or compen-
sation.

If reports are true, Mr. Bryan is one
of the best friends the republicans have
in this campaign. Wherever he speaks
reports follow of his half-hearted ap-

peals for the democratic ticket and of
the feeble enthusiasm which results.
One correspondent at Nevada, Mo., after
Mr. Bryan spoke there Tuesday, said:
"The general impression of the ad-
dress was of a speaker pleading with
the people to do something he knew
they didn't want to do, and which he
did not care particularly whether they
did or not, the speech clearly being a
labored one and delivered more as a
matter of duty than a desire."

This is no more than might be expect-
ed. Why should Mr. Bryan want a
democratic ticket advocating principles
he opposed for eight years elected, when
he, as candidate for the same party, was
twice defeated?

It is not known what is back of the
move to change the state capitol site,
but there must be something other
than the laudable desire to improve the
location. The only reason offered is
that the present site is not large enough
and this reason becomes ridiculous when
it is remembered that the state capitol
at Albany, N. Y., is on a smaller site,
and if New York can get her state capitol
into the space, Kentucky ought to
manage it somehow.

Kentucky seems to be enjoying a good
slice of prosperity. A report from
Washington states that the national
banks are better prepared to meet all
demands on them for the next two years
than they have been for some time,
and the state makes a similar report
regarding the state banks. There is
good business everywhere, and the fall
rush is not on.

POLICE COURT

JUDGE SANDERS DISPOSED OF
A NUMBER OF OFFEND-
ERS TODAY

Condeco Doprensanie is the name
of an Italian who was last night
picked up on the streets in a very
drunken condition. The police could
not ascertain his name last night on
account of his condition and while
his tongue was thick today he man-
aged to tell the judge what he is gen-
erally called. He got \$1 and trim-
mings.

Will Arnold was dismissed of the
charge of breach of the peace.

Fred Smith got a little too much
red eye on and caught hold of a
woman on the street. He got a fine
of \$30 and costs for disorderly con-
duct.

On motion of the prosecuting attor-
ney, the warrant charging breach
of the peace, against Claude Jones, was
fled away.

The case against Charles Arnold
and Georgia Williams charging disor-
derly conduct, was continued.

Arthur Clark, charged with present-
ing a pistol at Nell Pope, on West
Kentucky Avenue, was left open. It
is said he was drinking when the al-
leged offense was committed.

Armando Karnes, Lena Feers,
George Hudson and Robert Johnson,
were charged with being drunk and
disorderly. The former was fined \$20
and costs and the latter three dis-
missed.

DELTA LEAGUE RESULT.

The Clarksdale, Miss., team in the
Delta League won the pennant. Gas-
ton, formerly with Jackson, Tenn., is
pitcher, fielder and manager of the
successful team, and a number of other
K. I. T. players, including Willie Le-
compte, were with the team this sea-
son. It won 65 games and lost 30, its
per cent. being .684.

The local I. C. wrecker has returned
from the Louisville division, where it
has been working on several derail-
ments. The derailments amounted to
little and the damage to the road is
light.

Mr. C. A. Thurman went to West

tives.

MONTH OF AUGUST
SHOWN IN REPORTSThe Police Made Nearly Two
Hundred Arrests.Very Few Deaths In Paducah, and
the Fire Losses Were Re-
markably Small.

THE WORK OF THE MONTH

The record of the Paducah police
department for the month just closed
was a good one, the books showing
198 arrests, 105 white males and 17
white females, 65 colored males and
11 colored females. The charges slated
were as follows: Robbery 2; horse
stealing 1; house breaking 5; false
swearing 1; grand larceny 5; obtaining
money by false pretense 4; shooting
with intent to kill without wounding
1; petty larceny 11; concealed weapons
12; disorderly house 11; disorderly
conduct 21; breach of the peace 42;
drunk and disorderly 13; drunken-
ness 31; shooting in city limits 2;
vagrancy 4; insulting language 5;
breach of ordinance 5; riding on box
car 1; held for investigation 3; point-
ing pistol 1; immorality 6; fugitive 2;
escaped from city prison 1; suspects 5.

The fire departments during the
month of August made 18 runs, none
of them on false alarms, which is un-
usual. There were few fires of any
consequence, however, and the loss is
small.

The local Illinois Central hospital
report shows a marked decrease in the
number of patients admitted for the
month of August from the same month
one year ago, the sickness among em-
ployees being generally less than last
year.

"Health among the employees of the
Illinois Central on the district em-
braced by those having hospital privi-
leges, has been very good of late," a
hospital physician stated this morn-
ing, "and our reports are very satis-
factory. We had no deaths in the hos-
pital last month."

The hospital reports show admitted
during August 1903, a total of 127
patients, two thirds being white,
while this month, 1904, shows only
83 admitted and at present there are
but 45 in the hospital.

During the month of August there
were comparatively few deaths in
Paducah.

The records of the city clerk
show a total of only nineteen burial
permits issued, eleven colored and
eight white. Last year there were
many more deaths during the month
of August and the mortality rate
seems to be very much smaller.
Nearly all the deaths in Paducah
are on record in the city clerk's
office, as he issues all permits for
Oak Grove.

Stamp Deputy L. L. Bebout had an
ordinary month during August. His
report shows collections amounting to
\$6,370.96, with stamps issued for 908
barrels of whiskey.

During the month of August there
were few marriage licenses issued in
the county clerk's office. There were
7 colored licenses and 18 white, mak-
ing a total of 25 licenses issued.

A dozen sewer permits were issued
by Inspector Rasor during August,
which is a slight increase.

The total number of patients at
the city hospital at present is six, all
white. The hospital had few patients
last month and only one death oc-
curred.

City Engineer L. A. Washington
issued fifteen building permits for the
month of August. The permits run
from small frame house to large brick
stores and August was quite a good
month in building circles.

TELEGRAPH OFFICIALS HERE.

Superintendent of Telegraph J. V.
Groce and his assistant, Mr. W. E.
Weeks, left at noon for the Louisville
division of the road to look after the
improvements in the telegraph ser-
vice. They will look over the division

Democratic Ghost Stories.

Louisville Herald.

The Democratic press, to keep up the
courage of that section of the party
which indorses the Parker rape of the
presidential platform, presents figures
taken from Spiritland. What are the
facts? The electoral college now con-
sists of 476 votes. It takes, therefore,
239 to elect. The probably sure Demo-
cratic states are:

Alabama.....11	Missouri.....18
Arkansas.....9	North Carolina.....12
Florida.....13	Tennessee.....19
Georgia.....13	South Carolina.....12
Kentucky.....13	Texas.....18
Louisiana.....9	Virginia.....12
Mississippi.....10	

Total.....151

The sure Republican states:

California.....10	New Hampshire.....4
Connecticut.....7	New Jersey.....12
Delaware.....3	North Dakota.....4
Illinois.....27	Ohio.....23
Indiana.....15	Oregon.....4
Iowa.....13	Pennsylvania.....34
Kansas.....10	Rhode Island.....4
Maine.....6	South Dakota.....4
Massachusetts.....16	Utah.....3
Michigan.....14	Vermont.....4
Minnesota.....11	Washington.....5
Nebraska.....8	Wyoming.....3

Total.....244

The doubtful states are:

Colorado.....5	New York.....39
Idaho.....3	Nevada.....3
Maryland.....8	West Virginia.....7
Montana.....3	Wisconsin.....13

Total.....81

Giving all these doubtful states to the
Democrats they would still lack seven
votes necessary to win. But what is
there to justify the belief that any of
these states will vote the Democratic
ticket? Colorado in 1903 elected a Re-
publican justice of the supreme court
by a plurality of 7,586. Idaho elected in
1902 a Republican governor by 5,853, and
the legislature is Republican by 33 on
joint ballot. Maryland in 1903 elected a
Democratic governor by 12,625. But the
Republican pluralities were in 1896 32-
224, and in 1900 13,941. The Republicans,
besides elected in 1902 four out of six
congressmen. The state is therefore very
doubtful.

Montana, for justice of the supreme
court, went in 1902 Republican by 10-
486. The legislature is Republican on
joint ballot by 22. New York, with
the sole exception of the accidental elec-
tion of Alton B. Parker as chief justice
of the court of appeals in 1897, has not
since 1892 gone Democratic at any elec-
tion, presidential or gubernatorial. Mc-
Kinley's plurality in 1900 was 143,000.
The legislature of the Empire state is
Republican on joint ballot by 51. Nevada
is a silver state. It elected in 1902 a
free silver governor by 1,743. Will it
vote in 1904 for a gold standard presi-
dential candidate? West Virginia has
not since 1892 given a Democratic plu-
rality for president or governor. McKin-
ley's plurality of 11,503 in 1896 was in-
creased to 21,022 in 1900.

The legislature of West Virginia is
solidly Republican by a majority of 46
on joint ballot. Will West Virginia in
1904 renounce her record of ten years of
Republican loyalty? As for Wisconsin,
it is enough to point out that McKin-
ley's plurality of 102,612 in 1896 was
advanced to 103,656 four years later.
Governor La Follette, correctly described
as a Republican Bryan, may take some
votes out of the Republican column, but
gains from Democratic ranks will offset
these.

Wisconsin, will, at any rate, under the

fine leadership of United States Sena-

tors Spooner and Charles, remain firm

in allegiance to the party, that has given

its forests, fields, farms, factories

and mines the development which has

so abundantly enriched the state.

GOODWIN COMES

STAR TWIRLER FOR VINCENNES TO PITCH THIS AFTERNOON.

Clyde Goodwin, the star twirler of the Hoosier staff, arrived this morning from Clarksville and this afternoon donned a Redskin uniform and has his war headgear on.

Goodwin has not pitched since Sunday when he put Catcher Lemon out of the game, and is in prime condition. Goodwin is doing the pitching for the Ray aggregation this afternoon, and Wilder is throwing for the Parasites.

Tomorrow Bonno, The Invincible, goes in. This being ladies' day the handsome Italian will doubtless receive an ovation. Bonno is energetic and wants to work and when he has a bad inning never gets out, but pitches all the harder.

STABLE BURNS TO GROUND.

The No. 1 and No. 3 fire companies were called to the residence of Ed. Eaker at 12th and Bernheim avenue this morning at 10:30 to extinguish his stable which was afire.

The stable was filled with loose hay and was burned to the ground. Both departments had a good run, but could do nothing with the tinder box. The damage amounts to several hundred dollars.

98 TODAY.

There seems to be plenty of heat in old Sol yet. Yesterday was quite warm, and today the maximum was 98 in the shade, according to Government Observer Bornemann.

ANOTHER CHAINGANG SUIT.

C. Smith has filed a suit against the city for \$10,000 damages through Attorney J. M. Worten.

The suit alleges he was fined \$30 and costs for a breach of the peace and made to serve it on the chaingang.

DEATH IN COUNTY.

Science Destroys Rats and Mice.

Many readers of this paper have been greatly annoyed the last month or so with an unusual number of rats and mice, or both. Traps have been of no avail in ridding them of these pests. We are glad to tell them that science has discovered a means of driving rats and mice from the house to die. This is Stearns' Electric Rat and Roach Paste. Its sale has been remarkable, and it never fails. If you cannot get the Paste of your dealer, write direct to the Stearns' Electric Paste Co., Tribune Building, Chicago, Ill., and it will be sent to you express prepaid on receipt of price. It is easy to use, and rids the house of rats, mice, cockroaches, etc. Small size, 25c; Hotel size, eight times the quantity, \$1.00. 30 FOR SALE BY W. B. McPHERSON.

CONSTIPATION

"For over nine years I suffered with chronic constipation and during this time I had to take an injection of warm water once every 24 hours before I could have an action on my bowels. Happily I tried Cascarets, and today I am a well man. During the nine years before I used Cascarets I suffered almost miserably with internal piles. Thanks to you I am free from all that this morning. You can see this in behalf of suffering humanity."

ACCEPTS GOOD POSITION.

Mr. J. W. Worrell, who has been clerking temporarily at the New Richmond to help his friend, Colonel Bud Dale, today accepted a position with the Gilbert Tobacco Company, of Murray, Ky., as a traveling salesman. Mr. Worrell has been a resident of Paducah for several years, and was formerly president of the college of telegraphy here. He is a popular man with many people in this end of the state, and the Murray concern could not have made a better selection in securing a first class traveling salesman.

SPRAINS.

S. A. Read, Cisco, Texas, writes, March 11th, 1901: "My wrist was sprained so badly by a fall that it was useless; and after using several remedies that failed to give relief; used Ballard's Snow Liniment, and was cured. I earnestly recommend it to any one suffering from sprains." 25c, 50c, \$1.00. Sold by DuBois, Kolb & Co.

PADUCAH BREWERY CO.
Paducah, Ky.

TO FAR OFF ALASKA YOU CAN TELEGRAPH

Messages May Now be Sent From Paducah.

Wonderful Strides Made Within the Memory of Mr. J. R. Cobourn, the Veteran Telegrapher.

THE NEW CABLE COMPLETED

Mr. J. R. Cobourn, of the Postal Telegraph Company, is one of the oldest living telegraphers. For many years he has manipulated the key, and remembers when telegraphy was little more than an experiment, and lines were short and tolls were high. Now he can sit in his office on Broadway within a stone's throw of where he has worked for thirty-two years, and flash a message to Alaska, and the price is not as much as it was in his younger days to telegraph from Paducah to St. Louis, Chicago or New Orleans.

The toll on messages to Alaska has been cut down to such a point that it is possible for men with friends and representatives in Sitka, Juneau, Haines, Mission and Skagway to correspond with them over the wires without "going broke." The Postal Company has just announced that messages will be received for transmission over the government cable between Seattle and Sitka at low rates and that there will be cuts all along the line. Until recently it required months to communicate with persons in our far off northwestern possessions, and the ability to do it now and get an answer in a few hours shows what rapid strides are being made by the men of modern times.

Manager J. B. Allen, of the Postal, says that a person can now telegraph from Paducah to Alaska for less than \$2. Mr. Cobourn states that when he first began telegraphing 37 years ago, it cost \$2.50 to telegraph to New York, and almost \$1 to send a few words from Paducah to Louisville.

The new government cable to Alaska is the first telegraphic connection established with that territory. Telegrams heretofore could be sent a part of the way, but had to be carried by mail or carrier the remainder.

ABCESSES.

W. H. Harrison, Cleveland, Miss., writes, Aug. 15, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment; I got a 50c size, and it cured my leg. It is the best liniment in the world."

ABCESSES, with few exceptions, are indicative of constipation or debility. They may, however, result from blows or from foreign bodies, introduced into the skin or flesh, such as splinters, thorns, etc.

DESKS EXPECTED

Janitors at School Buildings Hard at Work Today.

Examinations to Be Held Next Week —Franklin Building to Be Ready When New Desks Come.

On account of the confusion of preliminary school work, the examinations of pupils at the High school will be held next week and on Friday the teachers will meet for instructions.

This morning all janitors were put to work cleaning the school buildings and getting the rooms in shape for the opening of school the 13th.

The desks from the seventh and eighth grades in other buildings have been removed to the High School and will be immediately put down. The new desks have been delayed and are not here, but are expected today or tomorrow. They will be put down on arrival and all delays avoided.

The Franklin school is not ready for opening and will not be until the new furniture arrives. This is the building entered by boys and the clocks, desks and equipment sadly demolished.

HICKS ON SEPTEMBER.

A secondary storm period, beginning the last two days in August, will last into the first and second days of September, storms having moved into central to eastern parts by the first and second.

The storm period beginning on the fourth and extending to the tenth promises to bring many prolonged and severe perturbations.

The disturbances at this time will almost certainly be aggravated in character, and prolonged, with possibly very slight intermission, into and through the reactionary storm period central on the 11th and 12th.

During the early stages of these early disturbances, an excessively high temperature, or heated term, is sure to make its appearance over most parts of the country.

We predict that Wednesday the seventh, to Saturday the tenth, will bring a decided crisis showing that equinoctial hurricanes of great extent and violence are near, if not sweeping over our southern coasts, or that phenomenal heat over the interior covering the greater part of the country will be culminating in low barometer, thunder storms and possible tornadoes in many places. If hurricanes and marked barometric depressions reach our south early in this period very cool northerly winds will flow southward over all central and western states, followed by "backing winds"—that is, shifting from east to north, northwest and west—attended by several days of dogged, persistent cold rains. We believe that the equatorial cyclones and hurricanes will delay their approach to our southern coasts long enough to cause a severe heated term during the first half of the month, or until severe storms on and touching the 11th and 12th. Earthquake and volcanic phenomena will be reported from various parts of the globe on and about the ninth.

Northerly currents will induce marked boreal conditions over western and central sections, bringing frosts to northern states not far from the 12th to the 15th.

The next regular storm period extends from the 16th to the 21st.

Whatever character of storms are in progress during the period, 16th to 21st, Sunday the 18th, to Wednesday the 21st, will bring the culminating crisis of the period.

A regular Vulcan storm period is central on the 29th, extending from the 27th, two or three days into October. As we enter this period the temperature will again rise to quite warm, and scattering storms will be advancing eastward over the country about the 29th and 30th.

In all we have said about the probability of hurricanes and high equinoctial storms and gales in September, we must not be understood as forecasting things out of the ordinary. We mean no such things. We do say that storms of decided energy will be perfectly natural, but there is nothing in the astronomical outlook to excite fears of more than ordinary phenomena.

SEPTEMBER WEATHER.

The Louisville weather bureau has sent out an advance date of September conditions that have prevailed in Kentucky for the past 33 years. They are not issued as a forecast.

The mean temperature during September has been 70 degrees. The warmest September was in 1881 with an average of 77 degrees and the coldest in 1879 with an average of 65 degrees. The highest temperature recorded was in September 6, 1899, when 102 degrees was registered and the coldest was September 30 of the same year when a minimum of 36 degrees was reached. The earliest date on which a killing frost has occurred was September 24, the average date being October 29.

The precipitation in September has averaged 2.66 inches. The greatest monthly precipitation was in 1884 when 5.90 inches of rain fell and the least was in 1883 when but .37 of an inch fell.

No snow has ever fallen in September.

The average number of cloudy days during September is seven, the average number of partly cloudy days ten, and the average number of clear days thirteen. The prevailing winds have been from the north with an average hourly velocity of 6.2 miles. The highest velocity of the wind recorded in September was forty eight miles from the west on September 15, 1898.

"I wonder what Charlie and our China boys will think of this?" said Wilbur, looking shoreward, where the deserters could be seen gathered together in a silent, observing group.

"We're well shut of them," growled Moran, her thumbs in her belt. "Only now we'll never know what was the matter with the schooner these last few nights. 'Hoh!' she exclaimed under her breath, her scowl thickening. 'Sometimes I don't wonder the beasts cut.'"

The dead whale was lying four miles out of the entrance of Magdalena bay, and as the junk and the schooner drew near seemed like a huge black boat floating bottom up. Over it and upon it swarmed and clamored thousands of sea birds, while all around and below the water was thick with gorging sharks. A dreadful, strangling decay fouled all the air.

The whale was a sperm whale and fully twice the length of the Bertha Millner. The work of tricing him up occupied the beachcombers throughout the entire day. It was put of the question to keep them off the schooner, and Wilbur and Moran were too wise to try. They swarmed the forward deck and rigging like a plague of unclean monkeys, climbing with an agility and nimbleness that made Wilbur sick at his stomach. They were unlike any Chinamen he had ever seen—hideous to a degree that he had imagined impossible in a human being. On two occasions a fight developed, and in an instant the little hatchets were flashing like the flash of a snake's fangs. Toward the end of the day one of them returned to the junk screaming like a stuck pig, a bit of his chin bitten off.

Moran and Wilbur kept to the quarter deck, always within reach of the huge cutting-in spades, but the Chinese beachcombers were too elated over their prize to pay them much attention.

And indeed the dead monster proved a veritable treasure trove. By the end of the day he had been triced up to the foremast, and all hands, straining at the windlass, had raised the mighty head out of the water. The Chinamen descended upon the smooth, black body, their bare feet sliding and slipping at every step. They held on by jabbing their knives into the hide as the head yielded barrel after barrel of oil and a fair quantity of bone. The blubber was taken aboard the junk, minced up with hatchets and run into casks.

Last of all, a Chinaman cut a hole through the "case" and, actually descending into the inside of the head, stripped away the spermaceti, clear as crystal, and packed it into buckets, which were hauled up on the junk's deck. The work occupied some two or three days. During this time the Bertha Millner was keeled over to nearly twenty degrees by the weight of the dead monster. However, neither Wilbur nor Moran made protest. The Chinamen would do as they pleased. That was said and signed. And they did not release the schooner until the whale had been emptied of oil and blubber, spermaceti and bone.

At length, on the afternoon of the third day, the captain of the junk, whose name was Hoang, presented himself upon the quarter deck. He was naked to the waist, and his bare brown torso was gleaming with oil and sweat. His cue was coiled like a snake around his neck, his hatchet thrust into his belt.

"Well?" said Moran, coming up. Wilbur caught his breath as the two stood there facing each other, so sharp was the contrast. The man, the Mongolian, small, weazened, leather-colored, secretive—a strange, complex creature, steeped in all the obscure mystery of the east, nervous, ill at ease—and the girl, the Anglo-Saxon, daughter of the northmen, huge, blonde, big boned, frank, outspoken, simple of composition, open as the day, bareheaded, her great ropes of sandy hair falling over her breast and almost to the top of her knee boots. As he looked at the two Wilbur asked himself where else but in California could such abrupt contrasts occur.

"All right," announced Hoang. "Catching all oil, catching all bone, catching all some plenty many. You help catching, now you catching pay. Sabe?"

The three principals came to a settlement with unprecedented directness. Like all Chinamen, Hoang was true to his promises and had already set apart three and a half barrels of spermaceti, ten barrels of oil and some twenty pounds of bone as the schooner's share in the transaction. There was no discussion over the matter. He called their attention to the discharge of his obligations and hurried away to summon his men aboard and get the junk under way again.

The beachcombers returned to their junk, and Wilbur and Moran set about cutting the carcass of the whale adrift. They found it would be easier to cut away the hide from around the hooks and loops of the tackle than to unfasten the tackle itself.

"The knots are jammed hard as steel," declared Moran. "Hand up that cutting-in spade; stand by with the other and cut loose at the same

time as I do, so we can ease off the strain on these lines at the same time. Ready there, cut!" Moran set free the hook in the loop of black skin in a couple of strokes, but Wilbur was more clumsy; the skin resisted. He struck at it sharply with the heavy spade. The blade hit the iron hook, glanced off and opened a large slit in the carcass below the slit. A gush of entrails started from the slit, and Moran swore under breath.

"Ease away, quick there! You'll have the mast out of her next—steady! Hold your spade—what's that?" Wilbur had nerved himself against the dreadful stench he expected would issue from the putrid monster, but he was surprised to note a pungent, sweet and spicy odor that all at once made thick the air about him. It was an aromatic smell, stronger than that of the salt ocean, stronger even than the reek of oil and blubber from the schooner's waist—sweet as incense, penetrating as attar, delicious as a summer breeze.

"It smells pretty good, whatever it is," he answered. Moran came up to where he stood and looked at the slit he had made in the whale's carcass. Out of it was bulging some kind of dull white matter marbled with gray. It was a hard lump of irregular shape and about as big as a hoghead.

Moran glanced over to the junk, some forty feet distant. The beachcombers were hoisting the lug sail. Hoang was at the steering oar.

"Get that stuff aboard," she commanded quietly.

"That!" exclaimed Wilbur, pointing to the lump.

Moran's blue eyes were beginning to gleam.

"Yes, and do it before the Chinamen see you."

"But—but I don't understand."

Moran stepped to the quarter deck, unsling the hammock in which Wilbur slept and tossed it to him.

"Reeve it up in that. I'll pass you a line, and we'll haul it aboard. God send, those vermin yonder have got smells enough of their own without noticing this. Hurry, mate. I'll talk afterward."

Wilbur went over the side and, standing as best he could upon the slippery carcass, dug out the lump and bound it up in the hammock.

"Hoh!" exclaimed Moran, with sudden exultation. "There's a lot of it. That's the biggest lump yet, I'll be bound. Is that all there is, mate? Look carefully." Her voice had dropped to a whisper.

"Yes, yes; that's all. Careful now when you haul up. Hoang has got his eye on you, and so have the rest of them. What do you call it anyhow? Why are you so particular about it? Is it worth anything?"

"I don't know—perhaps. We'll have a look at it anyway."

Moran hauled the stuff aboard, and Wilbur followed.

"Whew!" he exclaimed with half closed eyes. "It's like the story of Samson and the dead lion—the sweet coming forth from the strong."

The schooner seemed to swim in a bath of perfumed air. The membrane of the nostrils fairly pringed with the sensation. Moran unleashed the hammock and, going down upon one knee, examined the lump attentively.

"It didn't seem possible," Wilbur heard her saying to herself, "but there can't be any mistake. It's the stuff, right enough. I've heard of such things, but this—but this"—She rose to her feet, tossing back her hair.

"Well," said Wilbur, "what do you call it?"

"Set a Thief to Catch a Thief"

[Original.]

"I don't like this trip, Archie, at this time especially, so soon after having been married. Besides, Carlotta knows no one here. I wish you'd do what you can for Carlotta while I'm gone."

"Certainly, Bob. Doesn't she know any one at all?"

"A few women and one man—that fellow Reynolds. I don't like him, and I should prefer to have you monopolize her time rather than that he should have a chance to do so."

"But, my dear boy, why not leave it to her?"

"She's young, unsophisticated and a woman. I don't believe in temptation for any one. How do we know that if you or I—"

"Rate! We're not women. I'd trust you or myself anywhere. But I'll do my best for you, old man."

Robert Young left on a two months' journey, and on the evening of his departure his bosom friend, Archie May, called on his wife. He had barely been seated when Mrs. Young raised a pair of mild blue eyes to his and said:

"Bob told me before he went away that I was to be guided in my associates by you. I think you'd better tell me just whom to avoid."

"What a child!" thought May. "One would suppose I was her papa." Then he told her he wouldn't presume to do such a thing.

"I'm very anxious," she said, "to so conduct myself that you can conscientiously make a good report of me to Bob when he returns. If there is any one he would have me avoid I wish to know it."

May fenced with her for awhile, but she coaxed and teased till at last she got the secret out of him that Martin Reynolds was the man of all others to be avoided.

Now, there was nothing against Martin Reynolds except that he was a very attractive young man and a general favorite. May kept his promise to his friend to take care of his young wife by calling regularly three times a week. At the end of ten weeks the nights when he didn't call became a bore to him. Then one evening he called and found Reynolds in his place. May looked sternly at Mrs. Young, who cast down her eyes in a self reproachful manner, but when Reynolds left she explained that circumstances had led to Reynolds' visit and she couldn't have avoided inviting him without appearing unkind. May still appearing dissatisfied, she began to coax him not to blame her, at last begging him to excuse her with tears. That ended May's fatherly sternness, and he forgave her on condition that she discourage any further visits from the objectionable man. The coolness between May and the lady was followed by a very happy reconciliation.

Ten days after this episode a friend of May's said to him:

"Seems to me Mart Reynolds is getting pretty thick with that little Mrs. Young."

"What makes you think so?"

"Well, my sister has been in to see her two nights during this week, and my cousin has been there another night. Reynolds has been there all three evenings."

May was startled. He had been to see his charge every alternate evening, therefore Reynolds must have been to see her on every other alternate evening.

When May went to see Mrs. Young again there was a scene. She admitted everything, but declared that she was a victim of circumstances. May was convinced that she needed protection from Reynolds, and his blood boiled to protect her. Mrs. May begged him not to tell her husband of Reynolds' attentions and managed to find an opportunity to bring in an admission that she infinitely preferred him (May) to Reynolds. This mollified May, and the danger from Reynolds seemed less terrifying. From this time very tender relations existed between May and his charge till a day or two before Robert Young's return. Then May and Reynolds met at Mrs. Young's, and she turned the cold shoulder on May, devoting herself exclusively to Reynolds. May deliberately insulted Reynolds by ordering him out of the house Mrs. Young, after vainly endeavoring to restore peace, begged them both to leave, which they did.

The next morning Mrs. Young hired a detective to watch the two men and report every movement. At noon he brought her in a report, and she sent him to a telegraph office with a dispatch for her husband, to which a reply was received that he would be at home by the midnight train.

At 3 o'clock the next morning he was awakened by his wife, and half an hour later they were in a carriage driving to the suburbs, the detective on the box. Just before sunrise they turned into a wood and soon came to an open space shut in on all sides by trees. A small party was there, including May, Reynolds, two friends and a surgeon. Mrs. Young held her husband back till May and Reynolds were placed facing each other with pistols in their hands, when she rushed forward and threw herself dramatically between them.

"What in thunder does all this mean?" exclaimed her husband, coming up.

"It means, Bobby, dear, that the next time you go away and leave me in care of one of your fascinating friends to keep off one of your fascinating enemies you'd better put a watch on them to keep them from shooting one another. Come, gentlemen, this has gone far enough. Get into your carriage, and we will do the same. I've ordered a sumptuous breakfast to celebrate Bobby's return, and we'll all go and eat it."

KENTUCKY NEWS TOLD IN PARAGRAPHS

BAD NEGRO CAUGHT.

Fulton, Ky., Sept. 1.—Ed Harris, alias Peg Leg, a negro who escaped here about six months ago, is again in jail. He was arrested south of Fulton by Special Illinois Central Officer Leander Robertson and Officer W. Y. Eaker. Marshal McDade had a tussle with him at McConnell, but he escaped. The negro jumped the local at McConnell and McDade grabbed him but could not hold him and the negro jumped off and rolled down a steep embankment. He is charged with robbing a freight car in South Fulton.

RURAL DELIVERY AT BARDWELL.

Bardwell, Ky., Sept. 1.—Additional rural free delivery service is ordered established October 1 at Bardwell, Carlisle county, Kentucky, with one carrier. The route embraces an area of twenty square miles, containing a population of 560.

STATE INSURANCE.

Frankfort, Ky., Sept. 1.—State Insurance Commissioner Henry R. Prewitt's report for the fiscal year ending June 30 last, shows an excess over last year's of nearly \$50,000. The revenues of this department of the state government are the licenses on companies doing business in the state and tax on premiums collected by the companies during the year. During the last month the commissioner has collected a tax on premiums for the year the sum of \$220,844.43. For the year previous there was collected the sum of \$182,215.33, showing a difference of \$38,629.10. There was collected as licenses on companies the sum of \$7,905.17 in excess of last year, making a total excess over last year of \$46,274.27.

ASSAULTED AN INSPECTOR.

Fulton, Ky., Sept. 1.—Charles LaFosse, a negro dining car cook, was arrested here for threatening to kill a dining car inspector on the train near Dyersburg. He was taken to Dyersburg for trial.

IN KENTUCKY BUILDING.

Central City, Ky., Sept. 1.—Miss Pearl Haviland, of Bardstown, accompanied by her relatives, Mr. and Mrs. S. J. Gish, left this morning for Owensboro, where they will be joined by Dr. Tuttle, of Louisville. They will then proceed to St. Louis, where Dr. Tuttle and Miss Haviland will be married Tuesday night at 8 o'clock in the Kentucky building. Miss Haviland has been a popular visitor to Central City for the past six weeks.

COURT OF APPEALS DOCKET.

Frankfort, Ky., Sept. 1.—The docket of the court of appeals for the approaching September term will be a large one, containing in excess of 500 cases. There have been filed about 400 civil actions and about 100 criminal cases. The docket will be ready for sending out to the lawyers of the state the latter part of the week. The September term opens on Monday, September 19 next.

TO LAY CORNER STONE.

Murray, Ky., Sept. 1.—This afternoon at 3:30 o'clock the ceremony of laying the corner stone will take place at the Christian church. Prof. Hall L. Calhoun, of the College of the Bible, Lexington, will deliver the address.

FINE BARN BURNED.

Hopkinsville, Ky., Sept. 1.—The mammoth barn of Squire Lee King in North Christian, was burned together with 25,000 pounds of tobacco and a lot of farming implements and machinery, loss \$2,000. Squire King thinks the fire was work of an incendiary. Blood hounds took up a trail and followed it for a short distance when it was lost. It is believed the person mounted a horse and destroyed the trail.

BODY IN A TREE TOP.

Madisonville, Ky., Sept. 1.—Peter Gossett, aged 16, in Muhlenberg county, was accidentally killed while out hunting and his body remained in the woods for two days before found. The lifeless form was found in the top of a fallen tree. The charge from the gun had struck just below the chin and almost his entire face was torn away.

GETS DEATH SENTENCE.

Owensboro, Ky., Sept. 1.—After being out for forty-five minutes, the jury in the case of Robert Mathley, charged with the murder of Emma Watkins and James Gregson, the 26th of June, returned a verdict of guilty and sentenced Mathley to death. The trial occupied three days. This was the first time in fifty years that a

Daviess county jury had voted to impose the death sentence. Mathley's defense was insanity. The murder was due to jealousy and Mathley's mother died shortly after the commission of the crime as the result of the shock.

FIRE AT CERULEAN.

Hopkinsville, Ky., Sept. 1.—Fire of unknown origin at Cerulean Springs destroyed the dance pavilion, bowling alley and barber shop. James Mitchell, assistant clerk, and Frank Brown, a barber, barely escaped in their night clothes. The main hotel building was undamaged, and no one was hurt. Loss \$3,000, with no insurance.

MEETING POSTPONED.

Lexington, Ky., Sept. 1.—No meeting of the Goebel monument commission was held yesterday owing to the lack of a quorum. The meeting was called for the purpose of making an inspection of the monument and figure which will surmount it. Another meeting has been called for next Tuesday.

BIG ENGINES

MAY NOT BE ABLE TO GET THROUGH TUNNELS.

There seems to be some doubt in the minds of local Illinois Central engineers as to whether the big engines to be assigned to Paducah district of the road can run on the district because of the tunnels to be encountered.

There is but one tunnel between Paducah and Central City and until the blue prints of the engines get here nothing can be told of the matter. If the engines are any larger than the big 600 type, they can not successfully run, but the tunnels will be enlarged on the entire division as soon as other improvements are completed, it is said, and this will enable the road to run any sort of engine through.

On account of the small tunnels the big Pacific type of passenger engine could not run through. They are used on the Tennessee and Cairo districts, however.

WERE DELAYED

PROMINENT ILLINOIS CENTRAL OFFICIALS WILL REACH PADUCAH TODAY.

Mr. H. McCourt, assistant general superintendent of southern lines of the Illinois Central, Superintendent A. H. Egan and Roadmaster F. L. Thompson, of the Louisville division of the road, did not arrive yesterday afternoon as expected, but will arrive today sometime.

They started from Louisville yesterday morning and expected to arrive in Paducah in the afternoon. The inspections caused a delay and they remained in Princeton last night. The officials are inspecting the division and the many improvements being made.

SOME SMALL WARS BRIEFLY REPORTED

Honduras Sending Troops to Settle With Nicaragua.

Dispute Over Three Hundred Mile Strip of Land—Uruguayan Rebels Captured By Soldiers.

UNCLE SAM ASSURES PANAMA

Mobile, Ala., Sept. 1.—News was received here by steamer that President Bonilla of Honduras is dispatching troops to the frontier, and it is believed that within a short time he will demand a definite settlement of the boundary line dispute with Nicaragua, and on the refusal for a conference will make an attack.

The trouble is largely due to a concession granted an American company, composed of Pittsburgh capitalists, by the president of Nicaragua. Bonilla is seeking revenge on President Zepeda for the aid he gave the Honduras rebels in the last revolution. The territory granted the Americans is in the vicinity of Cape Gracias, and is upon Honduras soil. It is certain that bloodshed will follow before the Nicaraguans give it up. The strip of land is 300 miles in length, and a railroad is being built up on it to work the mineral districts. A small fortune has been spent upon the place by the Americans.

INSURRECTIONISTS CAPTURED.

Buenos Ayers, Sept. 1.—A great sensation has been created here owing to the surprising by troops of the government of Uruguay of an insurrection army force numbering 180 men fully armed and equipped, under Col. Pamillon on a steamer on the Uruguayan coast but in Argentine territory. President Ordóñez of Uruguay had been warned that preparations were being made for an insurrection expedition and dispatched two forces with armed vessels to watch for the expedition. At night the government troops attacked the insurrectionists with a continuous and merciless fire. Many of the latter swam ashore, but eight, badly wounded, were captured. The fate of the others is not known.

The insurrectionary vessel was also captured, and with it a considerable quantity of telegraph apparatus. The diplomatic relations between Argentina and Uruguay have become much strained owing to this incident.

Paraguayan revolutionary vessels are extremely active. They are carrying men, horses and arms and are searching all passenger boats. An Argentine warship yesterday threatened to fire on the revolutionary squadron if it intercepted vessels flying the flag of the Argentine republic.

PANAMA ASSURED.

Washington, Sept. 1.—United States Minister Barrett, at Panama, acting under instructions from the state department, has conveyed assurance to the isthmian government that the United States, in its interpretation of the canal treaty, will do nothing inimical to the interests of both countries and will adopt no permanent measures without the fullest consultation with the isthmian officials. Mr. Barrett, in a recent communication to the department, suggested that steps be taken to prevent the isthmus from becoming a resort for desperadoes, outlaws and adventurers.

UNUSUAL CASE

People Divided in Their Sentiments About Moving School.

Some Claim Supt. Ragsdale Wanted the School Moved, and Said it Ought to Be Done.

The trial of Trustees Downing and Powers, of school district No. 25, near the Benton road, for exceeding their authority in having a school house moved was completed yesterday afternoon, and is one of the most unusual cases on record. It was heard before County Supt. Marvin Ragsdale, who held a regular court and heard the evidence, which was taken down by a stenographer to be submitted to the state superintendent in case of appeal.

It seems the school house was located in one end of the district, and some of those who wanted it nearer the center of the district protested when a special tax for repairs was levied.

It was claimed by some of the witnesses that Supt. Ragsdale informed them that the school ought to be moved, "if it had to be done at night." There was considerable evidence to the contrary, also. He is alleged to have stated to the people who wanted it moved that there was no way to escape payment of the tax levied, but that they could elect a trustee who favored moving it.

The trustees finally voted to move the school, and the school was moved.

Supt. Ragsdale is said by some of the people to have been responsible for the charges filed against the trustees after favoring the removal of the school, but he denies it. He seemed to afterwards oppose the removal of the school, however, which some of the witnesses swore he told them ought to be moved, "if it had to be done at night."

The court himself interrogated some of the witnesses, and the questions and answers were in many instances highly amusing.

The court finally got down off the bench and started to testify himself, leaving the bench vacant, but the attorneys for the defense suggested that it would be proper for him to be sworn, and he then decided that it would not be worth while, and saying that he would not put them to the trouble, decided not to testify, and proceeded with the case.

Lawyers say it is one of the most unusual cases on record, and the first time they ever knew the presiding judge to leave the bench to testify in a case he was trying.

The people of the Clark's river section seem to be divided, some wanting the school moved and others wanting it to remain where it was.

It is likely that an appeal will be taken to the state superintendent if the case goes against the trustees, as attorneys say they are of the opinion that a county school may be moved that way by order of a majority of the trustees. Supt. Ragsdale has withheld his decision until Saturday.
